Macquarie Generation is committed to ensuring that the health, safety and welfare of employees, contractors and visitors.

This policy aims to provide workplaces where:

- smoking is not encouraged
- non-smokers will not be subjected to passive smoking
- the risk of fire is reduced
- litter is reduced
- the Smoke-free Environment Act (2000) and Smoke-free Environment Regulation 2007 apply

Smoking is not permitted:

- at power stations, except in designated smoking areas
- at the Corporate Office, except for one designated area
- in all vehicles (including mobile plant – eg, dozers, forklifts)
- in areas where flammable liquids are stored
- within 5 metres of building entrances at any Macquarie Generation facility

Employees, visitors and contractors are to be informed of the requirements of this Policy, the relevant workplace restrictions and the location of designated smoking areas.

G V EVERY-BURNS
